

**WA SOLAR
RECYCLING**

Hyden Drop Zone

1. This is a free Service – please read the following and respect the requirements
2. Minimum height of panels and pallet is 1m (we are charged by the pallet so anything less becomes very expensive on our end) the preference would be pallets stacked around the 1.5ish meter mark.
3. All panels need to be strapped securely to a pallet.
4. Page 2 of this document needs to be printed and attached to each pallet.

Questions to: admin@WaSolarRecycling.com.au
